

The Taylors to Belgium

Dear praying friends and churches,

Thank you for lifting our camps up in prayer. The junior camp was first. The ladies of the church, our girls and my wife put a lot of work into this camp. Many stateside churches helped supplying programs and material. All the VBS program and material must be translated into the different languages. Our theme this year was Pandamainia, "God is wild about you".. We ask every night for the children that have different needs to talk to us after the services. We had many children find an adult and confide in them. What is thrilling is that we use our youth and young adults to lead and teach in this camp. In the evenings we taught the life of Hudson Taylor. It was exciting to see the seed of missionary service be planted in many hearts. It was a good week and a great intro for senior camp

Our 10 day Senior camp immediately followed Jr. camp. It was the biggest camp since Covid. This year, camp offered Spanish, French and English. Bros Corre Myers and Danny Flowers alternated preaching. Every night the the youth were confronted to make a decision for Christ. Every night many teens knelt for salvation, full surrender, or changed life. It was thrilling to watch teens fall on their knees to surrender they hearts to God. We saw hearts melt and lives changed. It has been many years since we have seen the Holy Spirit move in such a might way.

Each year our daughter, Sarah and her husband , pay for her and her children to attend camp. This year her church sent a young lady to camp where she surrendered to be a missionary. After attending camp here many years, our granddaughter Allison and Hadassah Myers (one of our missionary speaker's daughter) will be attending West Coast Bible Baptist College together. Allyson has given her life to be a missionary too . We had one young man who was leaving the day after he got out of camp to go to Pensacola Christian College, actually changed his major to pastoral studies.

We are praying about adding a new camp/retreat for young adults next year. All the churches that are involved have young adults who need the fellowship and training. Pray with us about this.

The church has done well during the summer. The attendance has been steady or grown during the summer. We have had to commence the last of the renovations to bring the building up to code. The electricity and plumbing are not up to code yet in the back half of the building. The members have been very patient with the dust and dirt., We have seen our bathrooms go from 3 to 1. Pray with us that the work will be finished soon.
